REEF RELIEF

Create Your Own Sea Turtle

Materials:
- Paper Plate (round piece of paper also works)
- Coloring utensils
- Scissors
- Glue
- Body part cut outs
- Species Information page

Procedure
1. Pick your favorite sea turtle species and find the information page on our blog
2. Decorate the plate to look like your species' carapace
3. Color the body parts
4. Cut the body parts out and glue to the underside of the plate

*We encourage everyone to make their sea turtle true to an actual species of sea turtle. We have examples for each species on our blog post. Older students are encouraged to draw the correct scute patterns.
